

OPTIMIZE YOUR FERTILIZER PELLETIZING PROCESS

Traditional Pelletizing Process:

Pelletizing in a LANCASTER PRODUCTS Counter-Current Mixer*:

*Basic system – can be custom configured to client specifications

PRODUCT ADVANTAGES	Traditional System	LANCASTER PRODUCTS System
Homogeneous, spherical pellets	–	✓
Control of pellet size batch-to batch	–	✓
High yields of on-size pellets	–	✓

OPERATING ADVANTAGES	Traditional System	LANCASTER PRODUCTS System
Reduced System Complexity	–	✓
Reduced Equipment Maintenance	–	✓
Less Energy Use	–	✓
Reduced Physical Footprint	–	✓
Reduced Waste output and binder use	–	✓
Operates with high moisture materials	–	✓
